

PRODUCT SPECIFICATION REPORT

Bio Concrete Cleaner is a proprietary blend of concentrated, biodegradable detergents combined with a patented promicrobial technology.

BIO CONCRETE CLEANER

Bacterial Enriched, Hard Surface Cleaner

PROD. #1660

FEATURES/BENEFITS

Detergent Enriched	Immediate cleaning of petroleum based soils saves time and effort
Continues to Clean	The natural biological cleaning action of the bacterial cultures continues to eat away at the residual petroleum soils and stains.
Contains No Petroleum Distillates or Solvent	Non-flammable water-based formulation for effective cleaning without using heavy solvent based cleaners.

APPLICATION

Use to clean any hard surface or hard porous surface such as concrete, ceramic tile, grout, etc. anywhere a petroleum-based soil/liquid has been spilled. For use in: automotive garages, car dealerships, drive-thru, parking lots and garages, decks and patios, manufacturing facilities, fast lube centers.
